Approved Date: 3/12/2010

Overview:

Description: This policy letter implements how the Department of Growth Management Inspection Staff determines when a permit is required for re-roofing.

Purpose/Rationale: To determine when a permit is required for re-roofing.

Application: This policy applies to ALL re-roofing jobs.

General:

A permit will be required when working on more than two (2) squares. Two (2) squares equal six (6) bundles of shingles which is a 10'x 20' area (200 square feet).

The cost of construction is not a factor in determining if a re-roof permit is needed or not.
