Okaloosa Regional Airport Expansion Wins National Excellence Award

The Okaloosa Regional Airport displays a recent award on its expansion project. At the Associated Builders and Contractors (ABC) national convention, the Okaloosa Regional Airport Expansion won a National Excellence in Construction Merit Award.

According to Balfour Beatty Construction, who received the award, few are given out. Vice President Alan Silver had this to say in giving the award to the Airport: “Please find your award, because truly it was a team effort that could not have been accomplished without you and your staff’s perseverance and can-do attitude.”

Okaloosa Regional Airport is experiencing tremendous growth, with a 15 percent increase in passengers in July over last year, and a national average increase of 3.6 percent. Sept. 5th, non-stop American Eagle flights to Chicago begin at a competitive price of \$200 round trip. For more information, contact 850-651-7160
