Beasley Park Open Weekends Only While Roof Replaced

Okaloosa County Public Works Department has scheduled roof replacement at Beasley Park beginning Tuesday, April 22. All work will be done on weekdays only, allowing residents and visitors to enjoy the beach on the weekends. Weather permitting; the roof should be completed no later than Memorial Day.

“Due to the scheduling of inmates to assist and employee shortages in Public Works, this is the earliest we could get to this project, and the roof must be replaced,” stated Director Danielle Slaterpryce. “We want to make sure no accidents occur, and it is just safer to go ahead and close the park on weekdays.”

We regret the inconvenience; however, encourage visitors to Beasley Park on the weekends. For more information, call 850-689-5084.
