Okaloosa County to Citizen Surveys Coming Soon

Okaloosa County Citizen surveys will begin soon in an effort to gather information and present a budget process that focus on programs and services. Program-Based Budgeting moves the focus from department expenditures to programs and services. “The overall goal is to see how we are doing and what is most important to our citizens,” stated Okaloosa County Commission Chair Bill Roberts.

The survey will be conducted by The Listener Group, located in Gulf Breeze. The goal is to have 425 completed phone surveys in March (85 in each district of Okaloosa County), and then to post the survey online in April at www.okaloosafl.com. Online survey and phone survey data will be compiled, analyzed and presented separately to the Board of County Commissioners. Results will be posted online and publicized.
