John Spolski
Principal
Fort Walton Beach High School
400 Hollywood Blvd.
Fort Walton Beach, FL 32548

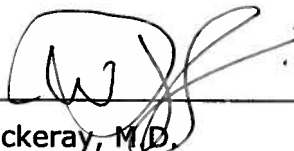

Dear John,

All of the physicians at Orthopaedic Associates are very excited to learn Fort Walton Beach High School is working through the grant process to expand your existing Biomedical Sciences Institute to include a Sports Medicine track to this program. Okaloosa County Schools have extremely well developed, long term, sports programs positively influencing so many students each year, which makes local sports involvement relevant to the Okaloosa County School culture. We fully support the establishment of the Sports Medicine track, and have great hopes the grant submission process will enable this to happen.

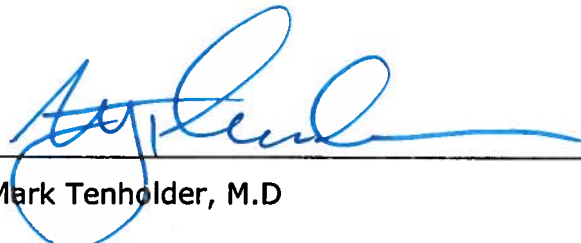

With excitement and optimism for the future,

Theodore Macey, M.D.

Jason Thackeray, M.D.

Mark Tenholder, M.D.

James Watt, D.O.
